

Internship Assignment - Flutter Developer - Page 1

Role: Flutter Developer Intern

Assignment: Build a Simple QR Code App

Requirements:

- Create a Flutter application that allows users to view a list of PDF documents.
- Upon selecting a document, the app should open a PDF viewer.
- Add a button to generate a QR code that shares a local link to the document.
- Use the `syncfusion\_flutter\_pdfviewer` package for rendering PDFs.

Deliverables:

- Complete source code hosted on GitHub.
- A short video demonstrating the app's functionality.

Internship Assignment - Flutter Developer - Page 2

Role: Flutter Developer Intern

Assignment: Build a Simple QR Code App

Requirements:

- Create a Flutter application that allows users to view a list of PDF documents.
- Upon selecting a document, the app should open a PDF viewer.
- Add a button to generate a QR code that shares a local link to the document.
- Use the `syncfusion\_flutter\_pdfviewer` package for rendering PDFs.

Deliverables:

- Complete source code hosted on GitHub.
- A short video demonstrating the app's functionality.

Internship Assignment - Flutter Developer - Page 3

Role: Flutter Developer Intern

Assignment: Build a Simple QR Code App

Requirements:

- Create a Flutter application that allows users to view a list of PDF documents.
- Upon selecting a document, the app should open a PDF viewer.
- Add a button to generate a QR code that shares a local link to the document.
